PRODUCT FEATURES

- Auto factories worldwide use U-Mark temporary markers to identify work-in-process parts and inventory or mark re-work items. Tips and paints have been designed to work on metal surfaces without affecting removability or the surface being marked.
- Can be used on wet and oily metal surfaces in assembly, stamping and metal fabrication.
- Marks are removable in a water bath and do not leave a halo, bleed through or ghost when the cleaned surface is primed or painted. **
- Cap with clip is easy to remove even while wearing gloves.
- Marker fits in U-Holder™.
- Made in USA.

TYPICAL USES

- Temporary marking of metals, glass, plastic parts, assemblies, and tools.
- Marking of work-in-progress and finished parts.
- Inspection and witness marks, quality control and coding applications, process identification.
- Marking of metals and glass whenever mark should be easily removed.

SAFETY INFORMATION

- Read SDS before using (available online at www.umarkers.com).
- Keep out of reach of children. For professional use only.

IMPORTANT INFORMATION

**Always read product directions and test surfaces for removability before use.
